EXPERIENCE

UX/UI Designer & Front-End Developer   2025.05 - 2025.12
WORLD FOOD PROGRAMME OF THE UNITED NATIONS, REMOTE

- Collaborated with graphic designers, developers, photographers, and copywriters to **create 4 fully responsive** and interactive websites that draw on public statistics and WFP data across Latin America and the Caribbean.
- Delivered consistent cross-browser user experiences. Developed modern frontend interfaces with React, TypeScript and GSAP.
- Created wireframes, storyboards and prototypes using Figma to effectively communicate design ideas to stakeholders.
- Optimized website content for search engine visibility (SEO)
- **Conducted 5+ usability tests** to identify areas of improvement for the UI design elements and sections.
- The website is live at: https://cdn.wfp.org/2025/foodprints/

UX/UI & Full-Stack Developer | Project Lead   2024.05 - 2025.12
THE TABLE, HARDING UNIVERSITY, AR, USA

- **Led a team of 3 developers to** build The Table's website, allowing students to view real-time inventory products in stock, contributing to a **total of 3,678 visits** to the food pantry since it was launched.
- Delivered a custom CMS for volunteers and board management, deployed on a Linux server with Docker, MySQL, Express, and APIs.

UX/UI & Full Stack Developer | Freelance   2024.05 - 2025.05
SPRING HILLS RANCH, MO, USA

- Executed the end-to-end design and development of an e-commerce platform using Figma, PHP, MySQL, and SCSS
- Architected search visibility strategy to **achieve #1 Google Search ranking**
- The website is live and accessible at: **springhillsranch.com**

UI Designer & Web Developer | Freelance   2025.01 - 2025.05
SOUTHERN KETTLE COMPANY, AR, USA

- Designed and developed an informational e-commerce website for a popcorn family business using Next.JS, TypeScript and Sanity.
